TRANSMITTAL OF CORRECTED DRAWINGS

Official Draftsperson
Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

Applicants detected discrepancies in the identification of compounds in Figures 4E3 and 4E4, which were submitted on November 18, 2002, in response to the Notice of Draftsperson's Patent Drawing Review dated July 8, 2002. As such, Applicants hereby submit the attached Figures 4E3 and 4E4 (2 sheets), in which the discrepancies have been corrected. For comparison, a copy of the previously filed Figures 4E3 and 4E4 is also enclosed. As identified by red text in the corrected drawings, previous respective Compound Nos. 21 to 35 have been replaced with respective Compound Nos. 90 to 104. Specifically, the compound numbers identified in those drawing sheets have been synchronized with the Brief Description of the Drawings, the sequence listing filed in the subject application, and the SEQ ID NOs referenced throughout the specification. No new matter has been introduced with these changes.

Once these changes are approved by the Patent Office, Applicants will submit new formal drawings with the indicated changes. Notification of approval of these correct drawings is, thus, respectfully requested.
